Objective:

To seek challenging assignment and responsibility, with an opportunity for growth and career advancement and to make a mark on the work assigned, by true dedication and hard work.

I've been working with OutSystems since 2012, I worked for many insurance companies, banks, consultancy companies. So, it means that I have experience with critical projects.

My backgroud is .NET, I combined .NET and OutSystems, so that's my main knowledge. Since 2014 I've been acting as a technical team leader, managing people and teach them about OutSystems and .NET.

My skill set is as follows:

- PHP 7.x
- Laravel Framework (5.x)
- Mysql/Postgres
- VueJS
- Vuex
- Quasar
- React / Redux
- AngularJS (1.x, 4+)
- RXJS
- socket.io + Pusher + PubNub
- Linux/Apache/Nginx/Varnish Cache
- Stripe Billing/Subscriptions
- Pusher
- Composer
- BDD/TDD Unit Testing / Protractor / Selenium
- Jenkins / Bamboo CI
- GIT
- Wordpress
- Docker/Vagrant
- Redis
- AWS / s3 / Route 53 / ECS / EC2
- GruntJS/Gulp

- Node/NPM/Yarn

- AWS Serverless

I have over 13 years worth of commercial software development experience and my primary languages are PHP and javascript I have also had some significant time in the .NET environment, and C/C++.

I have developed frameworks which suit people who want to develop cloud based SaaS.

API Development:

Twilio

Tesseract

PyTesseract

Backtrader

OpenCV

Pyfolio

OpenGL

Tensorflow

Stripe

BrainTree
